

Everyone's Invited To Join Big Parade; Full Day of Events Highlight Program

Plans were being completed this week for the great day in Campbell, February 22, when the whole town turns out to celebrate Old Settlers' Day. Committee met Tuesday night with William C. Henley, general chairman and formulated last minute plans.

Henley also appealed to the crowds attending the parade to keep the streets clear of parked cars on Campbell Avenue and on Winchester Avenue between Campbell and Rincon Avenues. Parking will be available on the Campbell Grammar school grounds and on side streets.

The day will start off with the registration of Old Settlers at the Campbell High School Little Theatre at 10 a.m. Awards will be given to the registered lady and gentlemen who have the longest residence in Campbell. There awards will be on display at Jeffers. Richard Morton is serving as chairman for the Old Settlers registration. The Old Settlers' Day Program will follow registration, with L. D. Bohnett serving as master of ceremonies.

Approximately 200 persons are anticipated at the Old Settlers' Day luncheon which will be held at the high school cafeteria under the sponsorship of the American Legion Building Committee from 11:45 to 12:45.

Chairman George Egling said those attending will be offered a choice of either beef stew luncheon for \$1, or cold plate luncheon at 75c. Each meal will include dessert, salad, bread and coffee.

A mammoth parade is being planned to start at 1 p.m. on Campbell Avenue with the order of marching groups as follows:

Section One—forms on Poplar Avenue, escort division, Chamber of Commerce car (J. M. Dahl, William C. Henley and Cel Gerevas), high school band, cadet corps, Old Settlers' group, sheriff's posse flagbearers, queen float.

Section Two—forms on Page Street—Juvenile group; Section Three, forms on Foote Street, Pet Parade; Section Four, forms on Dillon Avenue, civic groups; Section Five, forms on Railroad Avenue, commercial groups; Section Six, forms on Railroad Avenue south of Central Avenue, industrial groups; Section Seven, forms on Campbell Avenue, east of bridge, Cambrian District groups; Section Eight, forms on Campbell Avenue east of bridge, riding groups.

If any entry is not in its proper group, the entry will automatically be disqualified for prizes.

If anyone has been overlooked and has not received an invitation to enter the parade, this is due only to oversight on part of the committee. Every individual and organization is invited to join the parade. All late entries should fall in with the proper division.

This parade, which Chairman James Brand believes will be bigger and better than ever before, promises to have some unusual entries, especially in the commercial division where each is hot

after the first place award.

By order of the Board of Supervisors of Santa Clara County,

All local horsemen who are interested in riding with the Campbell group in the Old Settlers' Day Parade are asked to contact Ira Grim or Ray Strong, on Saturday or Sunday of this week.

parking has been prohibited on Campbell Avenue at any time on February 22.

QUEEN

Big moment in the parade will be crowning of the Queen who will appear on a float during the parade with the runner-up and last year's queen, Miss Barbara Musler. As her float comes to the reviewing stand, in front of the Campbell Grammar School, it will pause for the ceremony of placing the crown on the Queen, who will then review the parade with her escorts on the reviewing stand. Prizes and honors awarded the queen will be announced at the folk dance which will take place in the high school gym and at the Old Settlers' Day dance in the gym. Miss Musler will crown the Queen.

The queen will divide the prizes with the runner-up, approximately two-thirds going to the queen and one-third to the runner-up.

Eugene Barnes, chairman in charge of the Queen contest announced that the following prizes had been donated to the queen contest: a square dance costume to be donated by Rachel's, a hair drier from Burnett's Appliance Store. Accardi and Son Home Appliance will present a Philco Record Player. T.N.T. Variety Store will donate a bedroom lamp, and an English bone China tea cup and saucer is to be donated by the What Not shop. A permanent, free of charge, will be given by Alma's Beauty Salon; Hubert's Furniture Store will donate a pair of boudoir lamps; simulated pearls will also be given, while Clark's Drug Store is planning to give a bottle of Anticipation Cologne. A bouquet of roses and corsages is being donated by Tommy Blackmun's Campbell Florist; the Dolly Ann Shop, a dress; Rozanne Shop, a sweater; Campbell Hardware, \$10 in cash, and Joe Dahl, \$10. In addition, the Queen will receive a lovely evening dress, shoes, crown and corsage which she will wear during her reign.

FOLK DANCING

The folk dance festival, which will get underway during the last of the parade at the high school gym, will feature a special attraction at 3 p.m. when some of the finest dancers from northern California will put on a group of exhibition dances. Participating will

Trustees To File Moorpark Test Suit

WILLIAM CAMPBELL—pioneer settler in this area, who, in 1847, selected the site for his lumber mill in the untouched wilderness of Arroyo Quito canyon, near the present Long Bridge above Saratoga, marking the opening of what is now the Saratoga area to civilization. Campbell and his two sons, David, 23, and Benjamin, the younger (who later founded the town of Campbell), built the lumber mill which was opened in the fall of 1848, beginning operations shortly after the first such water mill in the county was opened in the Arroyo de Los Gatos canyon by Zachariah Jones. The above picture was taken when William Campbell was over 90 years old.

Private Patrolmen Locke Assists In Arrest Of Youths For Alleged Theft

Six alleged teen-age burglars struck at two locations in Campbell last week, but to no avail. The youths were arrested by deputy sheriffs and are being held by county authorities.

Mac's Market, Union and Woodard Avenues, was the scene of the first burglary attempt Wednesday night February 9, about 9 o'clock. Robert Locke, private police

Footlighters See Preview Of OSD Mellerdrammer

Footlighters, Campbell little theater group, held their regular monthly meeting at the "Barn", with President Irene Hodges presiding. The board of directors and the drama committee met Friday night and selected "January Show" which is to be sponsored by the Cambrian Home and School Club. Dean Chamberlain reviewed the play. Tryouts will be held March 1 at the Barn.

A preview showing of "City Slicker and Our Nell" was enjoyed by the group. The mellerdrammer will be one of the highlights of Old Settlers' Day program next Wednesday. Packed full of laughs, the backwoods tale of love and villainy promises to be a top notch performance, with the cast turning in an excellent job.

Those taking part are Betty Legg, Marion Nelson, Coralyn Coons, Jean Perdue, Budd Levenberg, Bert Legg, Gregory Parker, Phil Cosentino and Kathy Kollmer.

Refreshments were served by Jean and Harvey Sheeder, Lucille and Norman Corvello.

Awarded Job For Los Altos School

The contract for \$168,143 to build 12 classrooms and administrative office for Covington School in Los Altos has been awarded to Norman Lamb, Campbell contractor, who was the lowest of eight bidders.

Work is scheduled to start February 20 for the building, which will mark the initial unit of the building program for the Covington School. The unit in due time will house all sixth, seventh, and eighth grades of the Los Altos School district.

County Fire Chief, Surveyor Reach Map Agreement

An agreement stating that maps of new subdivisions in Santa Clara County will be filed with the Central Fire Department was reached Feb. 6 between County Fire Chief Henry C. Lingua and the County Surveyor's Office.

This agreement was reached as the aftermath of a fire which destroyed a West Side house near Los Gatos Saturday night. Firemen had difficulty finding the blaze. The Harris Avenue scene of the fire was not shown on any map in the department's possession.

J. J. Payne Heads Red Cross Drive

\$3000 Campaign Underway March 1; Planning Committee To Meet Monday

Joaquin J. Payne, manager of the Campbell office of the American Trust Company, has been appointed chairman for the 1950 American Red Cross fund drive in the Campbell area. Announcement came from D. H. Cramer, Red Cross branch chairman for Campbell.

Payne immediately began laying plans for opening of the drive on March 1. He said the local quota has been set at \$3,000, an increase of \$500 over the 1949 goal of \$2,500. Quota increase was necessary, he stated, due to expanding activities of the Red Cross in this area, and particularly the blood procurement program. Budd Levenberg is the Campbell Blood Procurement chairman.

Chairman for last year's successful fund drive was Henry Jewell of Jewell Realty. He and his workers carried the drive well over the top to 121 percent of the goal.

In accepting appointment as chairman, Payne declared, "I am interested in seeing that the American Red Cross remains strong in these trying times. The Campbell branch has always been extremely active and ready to help

Campbell District Board Decides to Sue SJ District On Moorpark Annexation

The Board of Trustees of Campbell Union School District has decided to file suit immediately to test constitutionality of provisions in the law that allow Moorpark School of the Campbell District to be absorbed by the San Jose Unified School District without equitable financial reimbursement. Campbell District Superintendent William C. Henley announced decision of the board this morning.

Chamber Board Considers Tree Planting Proposal

Mrs. G. Denny Wilson addressed the board of directors of the Campbell Chamber of Commerce Monday evening when they met in the Lloyd building. The chairman of the Campbell Garden Club tree planting project discussed the club's proposal to sponsor planting of flowering cherry trees in the community.

Directors promised their complete cooperation in the club project in which Mrs. Wilson said the club will urge everyone who plans to plant trees either in their yards or in curb space, to plant the flowering cherries. In addition, the club is developing its own project which, in its tentative stage, calls for planting of the cherry trees along present streets where possible and in new subdivisions. She explained that details of the project are still to be ironed out, and the project must necessarily be limited to club funds available for development of the planting plan.

The Chamber directors, during balance of the meeting, discussed final arrangements for Old Settlers' Day, and the organization and functions of standing committees.

Hansen Describes Coin Collecting To Campbell Kiwanis

"Old Coins" was the speech topic of Harvey Hansen, secretary of the San Jose Kiwanis and a past executive officer of the Pacific group, when he addressed the Campbell Kiwanis club Tuesday. He was introduced by Hans Hansen, chairman for the day.

Hansen remarked that many people are greatly disappointed when a carefully mustered coin collection turns out to be practically worth only its face value.

"Great care is taken by collectors in ascertaining truth worth of the coins, and many marks known only to experts are their signs of authenticity," the speaker said.

The guest speaker interlarded his remarks on the art of collecting with an interesting history on money in various past ages. Next week's session of the local group will be highlighted by a speech on "Juvenile Problems" by a representative from the Sheriff's office.

Perfect attendance pins were presented at the Tuesday meeting to E. R. Kennedy and Dave Saunders. Kennedy received his award for 17 years of perfect attendance, while Saunders has a 1-year record without a miss.

He said Attorney John Burnett of San Jose has been retained by the Campbell District for this purpose.

73 percent of the 681 pupils now attending Moorpark School would be deprived of its use, except under contract, should the annexation to the City of San Jose be accomplished, the superintendent revealed.

It is expected that Burnett will file the suit Monday in Superior Court, San Jose, against the San Jose Unified School District.

The Bradley Manor annexation election is scheduled for next Thursday, February 23, unless it is stopped by taxpayers' suit.

Group Announces Plans For Fiesta

Plans have already been announced for the second annual Cambrian Fiesta to be presented by the Cambrian Men's Club Sunday, May 7, at the school.

Cambrian men are striving to make this occasion bigger and better than the successful 1949 affair. Plans call for continuous entertainment, children's parade, king and queen contest, dancing and awards.

Chairmen for the various fiesta committees include Delos Bagby, youth program; Al Farlow, general program; Frank Coombs, booths; Max Nigl and Ward Edsinger, building; Jack Dohoney, Earl Gripestraw and Charles Sartorette, electricians; and Clarence Helmhold, publicity.

The Cambrian Men's group is now attempting to arrange the appearance of Bill Hubbard, former San Jose State football mentor, for their Father and Son night on February 28 at 8 p.m. in the school auditorium. In the event that Hubbard does appear, he will accompany his talk with pictures of the Raisin Bowl game or the Santa Clara contest. Publicity Chairman Helmhold will officially announce the guest speaker for this occasion next week.

Boy Scouts Get JC Aid For OSD

Boy Scouts in the Campbell area will sell refreshments along the line of march of the Old Settlers' Day Parade, February 22. Campbell Junior Chamber of Commerce is sponsoring the scouts. Jaycee president Kenneth Roberts announced that proceeds of the scout sales will be for benefit of the Boy Scouts.

With these proceeds the Junior Chamber hopes to send one scout from each troop in the Campbell area to the National Boy Scout Jamboree at Valley Forge, Pennsylvania, this summer.

Fablinger, Ruth Brown, John Duncan, Lt. Colonel Richard E. Humes, Payne, and Hill.

Meanwhile, Payne issued a call for volunteer workers to sign-up now to canvass territories in their neighborhoods during the drive. Volunteers may phone Payne at the bank, Campbell 3449. He urged all who have aided in earlier campaigns to lend their valuable support and experience in the coming effort.

During the planning meeting Monday, Payne will present tentative plans for a kickoff luncheon and meeting of drive workers. A. R. Anderson, manager of the San Jose Red Cross chapter, of which Campbell is a branch, is working with Payne on initial organization plans for the fund campaign.

India Memoirs

By Dr. J. C. JOHANNES

Part Three—(Continued from last week)

Few westerners realize that 350 million or 90 per cent of India's population live in over 700,000 villages. To find the true India one must go to the countryside, where the peasants, living in superstition and conditions far from ideal, represent in a very real way the time-worn traditions and customs of the country.

To go to one of these villages we will have to resort to several means of transportation. Our destination is about 185 miles from Calcutta. But it will take about twenty-four hours to get there. As there are no restaurants that we would care to visit on the way we take our own food and boiled water. O yes, and our bedding mustn't be forgotten, for on the trains nothing is furnished. Our outmoded taxi, a Buick touring car, bounces us through crowded streets.

Crowded Humanity

The 'taxiwalla' has to squeeze constantly the rubber bulb of the large extra horn that is mounted on the side of the car to clear the way. The regular horn that operates from the battery has been worn out long ago. Pedestrians, horse-drawn vehicles, rickshas, handcarts—the two-wheeled contraptions pushed and pulled by men—, bullock carts, coolies with loads on their heads, and animals, such as cattle, goats, and the holy cow, all are in the middle of the street and have to clear away before our taxi can go through. When the horn is sounded the pedestrian will stop, turn around and see who is coming before he gets out of your way. Or, terrified, he will dash across the street like a scared chicken.

After making several dozen stops we eventually reach the railroad station. This is always an interesting place. There are hundreds of specimens of humanity covering the floor of the platform. These people are waiting for their train. They have come here hours ahead of time. Some women are stretched out on the floor with their babies sleeping. Others are sitting, smoking or eating and chatting with their neighbors. Traveling is one of the greatest excitements for the Indian. He likes to get on the train and go somewhere, it doesn't matter where.

The trains have four compartments—first, second, intermediate, and fourth. The great majority of the Indians travel third. This coach has nothing but hard benches for seats. As there are more passengers than seats, the majority of them sit on their beddings and suitcases put on the floor.

(Continued Next Week)

New Optometrist

Dr. Robert R. Jasmine

Dr. Robert R. Jasmine, O. D., has opened offices for the practice of optometry at 9 S. Fourth street, Campbell. He is a graduate of San Jose State College and the Los Angeles College of Optometry. His offices are in the Graeco building just around the corner from Campbell avenue.

Campbell's only optometrist was born in San Francisco, and lived in San Jose during the ten years preceding the war. During World War II he served with the U. S. Navy in South Pacific for four years.

Dr. and Mrs. Jasmine and their daughter Cassandra, 4, are residing in San Jose at present, but they hope to move to Campbell very soon.

Girl Scouts Hold Court of Awards

A Court of Awards and Valentine party was held February 13 by members of the Cambrian Girl Scout Troop No. 77 at their regular meeting in the Youth Center Hut.

Invested as new members and tenderfoot scouts were Annette Bowers and Carol Schatansky. Mothers of the girls were present at the meeting and refreshments were served. Mrs. Carl Stearns is leader of the group.

CAMPBELL REGISTER

MISS PEGGY ANN LUCAS and her brother TEDDY, 20 months and six months old respectively, were the guests of honor at a Valentine party Tuesday presented by their mother.

Setting for the party was the 419 Hawthorne Avenue home of the youngsters' parents in Campbell. Children at the celebration included Teri Jean and Randy Lee Nicholson, Sharon Pierce, Susan Burch, Denny and Tommy DeMartini, Gary and Ronnie Olson, and Robbie Howard. Decorations consisted of red and white crepe paper and colored balloons. The table was decked with valentines.

A Valentine party Tuesday in the Robin Lane home of Mr. and Mrs. D. R. Pender of Campbell heralded the fifth birthday of their daughter, MISS MERNON PENDER. Young guests at the party were Karen Duffey, Marilyn Bell, Lane Hecker, Linda Faulkner, Jacqueline Orsi, Thelma Wall, Linda and Barbara Salituri and Barbara and Ann Frick.

MRS. KATIE CARDENAS was honored at a baby shower presented by the Buzz and Stitch Club of the San Tomas area at the home of Mrs. Fred Bressie on Wednesday. Some 24 members and guests were present for the occasion at the San Tomas home. Highlight of the shower was the presence of little Miss Nicolette Irene Cardenas, who was born January 30, 1950.

MR. and MRS. HAROLD C. DONNER, 600 E. Campbell Avenue, welcomed a new member of the family Thursday noon. He is RICHARD ROBIN DONNER, born at San Jose hospital and named after an uncle. Other children of the Donners are Nancy Lou, 20, and Dolores, 22. Richard Robin's grandparents are Mrs. Ida Craig of Grants Pass, and Mrs. C. A. Donner of Modesto.

Members of the Campbell Garden Club gathered Thursday at the Methodist church smorgasbord luncheon to honor MRS. MONICA PARR, who is leaving for a six-weeks visit in Pasadena. 28 members were present to surprise Mrs. Parr and to present her with a lovely going-away present. Mrs. Parr will be the guest of her brother, R. E. Corbitt.

MR. and MRS. RAYMOND COWAN are the new residents at 173 Sunnyside avenue. Former residents of the home were MR. and MRS. M. S. GABBARDS.

Mina E. Gordon Succumbs After Brief Illness

Mrs. Mina E. Gordon, 62, former resident of Campbell, died yesterday in San Jose, following a brief illness. She was the wife of John C. Gordon, San Jose commercial photographer and master of Santa Clara County Pomona Grange. She was a native of Michigan.

The Gordons had lived in Campbell for many years before moving to San Jose, and they were active in the local Grange, Orchard City No. 333. Mrs. Gordon was a member of the First Methodist Church, Orchard City Grange and Santa Clara County Pomona Grange.

Surviving her are her husband; children, Ronald H. of San Carlos, Mrs. Doris E. Herschbach of San Jose and Wilbur C. Gordon of Sonoma; nine grandchildren; and an aunt, Mrs. Emma Richardson of San Jose.

Funeral services will be conducted Saturday at 3 p.m. from the Chapel of Amos O. Williams Co., San Jose. Interment will be at Los Gatos cemetery.

New Kindergarten Teacher Appointed

William C. Henley, Campbell Elementary School District superintendent, has announced appointment of Mrs. Dorothy Kinney as a kindergarten teacher at the local school. Mrs. Kinney, who is from San Jose, replaces Mrs. Elizabeth Free, who is moving to Stockton to join her husband there.

Before refrigeration was generally in use, meat was packed or salted down in barrels.

BOBBY DAVIS, small son of Mr. and Mrs. E. E. DAVIS, is confined to his home with a case of the mumps.

BUD DEREMO, of N. First St., is back at work after being at the hospital for three days last week for a check-up.

San Tomas Parents Plant Trees, Shrubs And Install Equipment During Workday

Last Saturday was Work Day at the San Tomas School for a number of parents who donated their time and tools in the effort to improve the grounds. Instigated by Wm. Shuey, principal, for the purpose of installing playground equipment and planting roses and trees, and backed by the PTA and the San Tomas Men's Club, it was considered a great success both in turnout and amount of work accomplished.

In addition to the slides and bars that were set up, the handball backstop was painted and two horseshoe pits were installed. The San Tomas Improvement Club took the responsibility of planting 20 Paul Scarlet rose bushes along the fence on Abbott Ave. In addition to the roses, 30 Lombardy Poplars were set and nine rapid growing shade trees.

The working group consisted of the following parents: Ed Gult, Ed Forsyth, Henry Lastra, Roger Ponessa, Harry Hara, Tom Duffy, Herman Davis, Les Heriman, John Heriman, John Brown, Joaquin Miranda, Elmer Velandier, Oscar Walter, Spencer Thorne, Walter Thurber, Dale Lloyd, Glen Lockling, George Long and James Morrison.

An excellent luncheon was served by Mrs. Ray Martin, president of the local unit, assisted by Mrs. Walter Thurber, Mrs. Dale Lloyd and Mrs. Anita Morrison.

Social News of Local Interest

THEODORA JOHNSON, Women's Page Editor

Country Women Honor Past Presidents At Their Forty-fifth Anniversary Tea

The 45th anniversary of the establishment of the Country Women's Club of Campbell was observed at a tea held February 8 in their clubrooms. Mrs. Henry Miller, a club member, chose as her topic for the birthday talk, "Beauty In Service." She emphasized the important achievements of club women in California. In her many years of membership in women's clubs, Mrs. Miller has participated in many club projects such as: welfare work during the depression, clinics of various types, public safety programs and work in raising the standards of state institutions.

Mrs. Carl Field, a past president of the Campbell Club, reviewed the work of the local organization. Purposes of the Country Woman's Club are to increase kindly fellowship, to encourage high thought and free speech upon all matters of general interest; to foster worthy talent in their midst, and to aid the growth of the Campbell Library. Most of the club efforts were devoted to raising money for the present library building and to maintaining the library.

VOCAL NUMBERS

Mrs. Peter Horn of Los Gatos delighted the club members with two songs: "Absent" and "When You Look in the Heart of a Rose." She was accompanied by her daughter, Donna Horn.

Mrs. Earl Buck and Mrs. G. H. Parker, club members, sang several duets, including "Until," "In the Garden of My Heart" and "Smilin' Thru." Mrs. David Sanders was at the piano.

As a feature of the afternoon, the following past presidents were presented to the club and were given camellia corsages: Mesdames E. L. Price, 1905-08; L. J. Carboni, 1927-28; Edna Smith, 1933-35; W. R. Morgan, 1939-41; G. E. Jeffers, 1941-43; C. B. Field, 1944-46, and F. A. Jacobson, 1948-49.

Club members who arranged the interesting program, decorated the clubrooms so beautifully and served the delightful tea, were: Mesdames Frank Coombs, Felix Bersano, E. F. Ballot, R. E. Schaeffe, Margaret Parr, H. E. Hansen, Frank Hinrichs, J. C. Graham and R. L. Root.

Garden Club Has Cherry Tree Planting Project

Planting of flowering cherry Kwancan trees was selected as its main project for the community at the Campbell Garden Club meeting Wednesday afternoon. President Mrs. J. D. Cantoni presided at the gathering.

Members attended the smorgasbord luncheon given Thursday at the Methodist Church, and Monica Parr, who is leaving for an extended stay in Los Angeles, was presented with a bon voyage gift from the club.

Campbell Garden Club will have its birthday tea on Wednesday, March 15, and Mrs. Ray Prince will be the speaker. Her topic will be "Color in Gardens and Flower Arrangements."

At the next club meeting on Wednesday, March 1, members will elect a nominating committee.

Lutheran Church Ladies Guild Has Tuesday Meeting

The home of Mrs. Richard Pritchett, 2396 Shibley Avenue, was the scene of the Tuesday evening meeting of the Ladies Guild of the Lutheran Church of the Good Shepherd.

Mrs. Bert Weeks was the co-hostess for the occasion.

Evening Guild

St. Lucy's Evening Guild will meet Thursday, February 23, at 8 p.m., in the home of Mrs. Ann Carlino, 150 W. Rincon Avenue. Hostesses for the evening social meeting will be Mrs. Olive Parysek and Mrs. Carlino.

Fifteen members of the Oda-konya Camp Fire Girls have attained the rank of Fire Maker after officially passing examinations at an afternoon tea presented at the home of Mrs. L. E. Means on Poplar Avenue.

Miss Edith Titcomb, head of the awards committee for the county examined the girls for proficiency. Each girl was presented a silver Fire Maker bracelet, gifts from their mothers. Making the presentation was Mrs. John B. Chambers.

This ceremony marked the greatest number to receive their advanced rank at one time. Girls receiving awards were Joan Oser, Arlene Catinho, Sandra Howard, Nancy Titus, Nadine Babb, Patricia Means, Marilyn Herford, Elizabeth Ribble.

Vivienne Andros, Virginia Kinsella, Ethel Seabock, Judy Zimmerman, Ann Chambers, Delores Saleri, and Jacqueline Silberbauer.

Officers

New officers of the group to serve for the new year include Virginia Kinsella, president; Nancy Titus, vice-president; Judy Zimmerman, treasurer; Nadine Babb, secretary and Joan Oser, sergeant of arms. Mrs. D. W. Ribble is their leader.

Mr. and Mrs. Sam Noonkester Feted By Friends And Relatives On Golden Wedding Anniversary In Campbell

Friends and relatives of Mr. and Mrs. Sam Noonkester gathered recently at the recreation hall 81 East Latimer Street in Campbell, to honor the couple on their 50th wedding anniversary.

The hall was beautifully decorated with gold roses, bridal wreath and fern. A large three-tiered wedding cake flanked by gold-colored candles was in the center of a table.

After enjoying a dinner, Mr. Cliff Winters, minister of the Church of Christ, of which the Noonkesters are members, paid the couple tribute. The group presented the Campbell residents an appropriate gift on the occasion.

Mr. and Mrs. Noonkester were married in Eastland, Texas, on February 9, 1900. They moved to California in 1933, settling at Hollister. In 1943 the couple moved to Campbell, where they have resided ever since at their Central Avenue home. All their children, except one son in Texas, were present for the anniversary event.

Family

Children attending with their families were Mr. and Mrs. Dee Noonkester, Mr. and Mrs. Samuel

Noonkester, Mr. and Mrs. J. E. Coffey and Mr. and Mrs. Howard Noonkester.

Other relatives and friends present included Frankie and Joyce Ruggle, Truman Noonkester, B. W. Pounds, Harold Stone.

E. O. Eudaley, J. R. Eudaley, Tom Barton, Schaffer Martin, Al Weeks, A. L. Davis, M. S. Gabbard, N. M. Brown, Floyd Little, B. F. Hinson, Cliff Winters, Claude Luper, Paul Stone, Andy Harness, Alvin Ellis, Jay Martin, Lynn Brown, Thomas Payton, C. M. Green, Glenn Gabard, R. E. Hinson, Daniel Martin.

N. A. Williams, Myrold Martin, Bill Ross, Jim Enyart, Helen Gabbard, Hazel Atkinson, Vera Daniel, Helen Barton, Rose William, Pearl Meers, Omega Stone, Ellie Stone, Jane Sallee, Noel Joan Weeks, and Beverly Martin.

Mrs. Robert McArdeell Awarded First Life Membership By Moorpark PTA; Scholarship Winner Talks To Group

In honor of Founders' Day, the Moorpark Parent-Teacher Association awarded their first life membership to Mrs. Robert McArdeell at their meeting February 14 at the school.

Mrs. McArdeell, an outstanding PTA leader, undertook the organization of a new group. She served as Moorpark unit's first president for a term of two years. Presenting the award was Mrs. W. J. Raab, who explained that money for this life membership goes into a scholarship fund for college aid to deserving students.

Scholarship

A recipient of PTA scholarship aid, Miss Barbara Price of San Jose State College, told her personal story of seeking the scholarship to accomplish her educational goal—that of becoming a teacher. Further discussing college aid, Mrs. Leslie Wilson, sixth district PTA president, spoke of interest-free student loans, special education fellowships, psychiatric and social welfare fellowships financed by PTA groups throughout the state. In this manner many students are encouraged to join the teaching profession, which so urgently needs more members to cope with increasing population trends.

Another guest speaker at the Tuesday meeting was Richard Gordon of the Campbell School music department, who announced class instruction in string instruments to start at Moorpark this month. An additional music instructor will join the Moorpark staff in the development of a school orchestra.

Discussing the Bradley Manor annexation question as it affects Moorpark School, Wade Brumal of the West Side Bulletin, explained the possible legal courses of action open to Campbell taxpayers in event the school is annexed without reimbursement to the district.

A summary of the plans for Old Settlers' Day in Campbell was presented by William C. Henley, chairman for the celebration. The afternoon business session featured the election of a nominating committee to select new officer candidates for the coming year. Elected were Mrs. Vincent Gorman, Mrs. Jack Flournoy, Mrs. Lester Breeding, Mrs. W. H. Walker and John P. Duncan.

Room attendance prize for the meeting was won by Mrs. Irma Di Benedetto's second grade. Hostesses were the second grade mothers.

Refreshments will be served. The public is invited to attend. Members are asked to leave contributions for the card party at the parish house.

Refreshments will be served in the school cafeteria at the close of the meeting session. Mrs. Gunnar Peterson, chairman of the day, has announced that all young children will be cared for in the kindergarten room.

ST. LUCY CLUBS' SET DATE FOR BIG PUBLIC WHIST

Three St. Lucy's Church organizations have joined forces to sponsor a whist party Saturday, Mar. 25, at the Campbell Union High School gymnasium. The public card fete will be one of the largest in the history of the three local groups. Fred Smith is chairman of the planners.

Numerous special events are planned for the occasion, which promises an enjoyable evening for all who attend. Sponsoring organizations are: St. Lucy's Evening Guild, St. Lucy's Women's Club and St. Lucy's Men's Club.

In 1851 Los Angeles County extended from the Pacific Coast to the Colorado River and Nevada.

St. Lucy's Club Monthly Card Fete Next Week

St. Lucy's Women's Club will sponsor its monthly public card party on Friday, February 24, at 2:15 p.m. in the Campbell IOOF Hall. Committee for the card fete includes Mesdames M. F. Fields, general chairman; John Perata, T. M. Pimental, Joseph Ott and Ambrose Metcalf.

Refreshments will be served. The public is invited to attend. Members are asked to leave contributions for the card party at the parish house.

Woman's Service Club Reviews Plans For Spring Musical Tea April 5

Mrs. Earl C. Buck, general chairman for the annual spring musical tea, gave a report on plans for the event at the meeting of the Campbell Women's Service Club when it met in regular session at the home of Mrs. J. M. Dahl. The spring musical tea is to be held Wednesday, April 5.

Committee chairmen for the event gave their reports. Leslie and

Founders' Day To Be Celebrated By San Tomas PTA

Mrs. H. C. Grimes, first vice-president of the sixth district Parent-Teacher Association, will be the guest speaker at the third annual Founders' Day program of the San Tomas PTA Tuesday, February 21.

Planting of a tree will open the program in honor of Mrs. Don Lukehart, the 1949 president of the San Tomas group. At last year's tree planting ceremony, Mrs. John Perata, first president of San Tomas PTA, was honored.

Leading the pledge of the allegiance will be the Boy Scouts and Camp Fire Girls. Awards of best citizens of the week will be presented at this time along with an award for Mrs. Woods' class for winning the PTA membership drive.

Mrs. James Morrison is scheduled to give a report on the California Recreational Conference, which she attended in San Jose this week as a PTA representative.

Refreshments will be served in the school cafeteria at the close of the meeting session. Mrs. Gunnar Peterson, chairman of the day, has announced that all young children will be cared for in the kindergarten room.

Decorations, Mesdames C. A. Short, Guy E. Farley, I. R. Abbott, Ray Fish, Herbert Binley and W. L. Powell; Serving, Mesdames Richard Golden and Milton Robertson; Tables, Mesdames Les Ackerman, William N. Lloyd, L. J. Hill, LBen Howard, William Enoch, W. E. Runge, J. M. Dahl and Miss Winnie Grizzle.

Tickets and Reservations, Mesdames Clarence Helmbold and Everett Nelson; Publicity, Mesdames Earl Clark and Ward Edsinger; Sweet trays, Mesdames E. R. Kennedy and L. J. Osborne; Cleanup, Mesdames Herman Rice, Earl Buck and R. J. Flagg.

Mrs. E. R. Kennedy, as historian, exhibited the scrapbook which she has started and which gives a resume of the club's activities commencing with its first meeting 21 years ago. Mrs. Flagg announced appointment of the new standing committees.

After the business meeting attractive refreshments were served, carrying out the George Washington theme.

Board Refers Zone Controversy Back To Commission

County Board of Supervisors bounced the question of the Catalpa Lane and Winchester Road rezoning right back in the laps of the County Planning Commission this week by referring the matter to the commission for further study.

Planners first ruled on the matter on January 2, when they approved reclassification of the E. R. Kennedy property by a close 3-2 vote. Campbell mortician David F. Rutherford seemed assured of a green light on plans to erect a mortuary on part of the property which he purchased from Kennedy.

However, before Rutherford had time to do more than thank the planners for their consideration, opponents of the rezoning appeared the decision to the County Board of Supervisors. Attorney

Hugh C. Center represented opponents of the zoning who objected to the change primarily because of intended use of property for a mortuary. Center also told the Supervisors that extension of the business zone is a violation of tract restrictions drawn up by Kennedy when he originally subdivided the lots.

Last Monday, on motion of Fourth District Supervisor Joseph McKinnon, the board referred the matter back to the Planning Commission for further study of two factors: One—the type of use for present commercial zoning on Winchester Road, and whether extension of the C-2 zone is necessary; and, Two: the original application apparently was not in order. It is expected that the Commission will institute an actual on-the-spot study of the area involved.

A routine matter was the application of Cambrian Elementary School for permission to add a cafeteria to the existing school on the northwesterly corner of San Jose-Los Gatos Road and Casey Road. The board approved the re-

quest.

Planners recommended the denial of petition of Jack and Elsie Bond to reclassify property on the northwest and southwest corners of San Jose-Los Gatos Road and Elliott Avenue, to permit development of a large shopping center. Final decision on the petition rests with the County Board of Supervisors who will take it up at their meeting Monday.

Recommendation against reclassification was based on studies made of the area. They found that rezoning for commercial use would be unnecessary for the convenience of the public, since other commercial zones in the area have not been completely developed. A surplus of commercial zoning, they stated, is not good planning. In addition, location of the center on a fast highway, where the traffic into and from the center would interfere with flow of traffic on the highway, was found inadvisable.

Still under advisement is the petition of J. M. Reiter to reclassify property on the northerly extension of McGlincey Lane as it runs off Casey Road. Reiter, too, plans a drive-in theater. Board decision on the matter is being held up until the State Highway Department advises the commission on location of the proposed Route 5 extension. It is possible that the highway may cut through the proposed site of the theater.

One of Frank DiNapoli's petitions to rezone property on San Jose-Los Gatos Road, for the purpose of erecting a drive-in theater, met with strenuous opposition at the first public hearing Wednesday before the County Planning Commission. The second petition was withdrawn when DiNapoli's attorney, Harriet Manina, said the State Highway Department would not approve this site.

DiNapoli asked reclassification of two sites—one at the southeast corner of San Jose-Los Gatos Road and Hamilton Avenue, and the other on the east side of San Jose-Los Gatos Road between Downing and Fruitdale Avenues. Attorney Manina requested that the second petition be withdrawn.

On the matter of the Hamilton Avenue corner, however, the protestants were numerous and the opposition vigorous. Attorney Richard Morton represented the Ainsley Corporation in opposing the matter. Second public hearing is set for one month from this week.

Remodeling

Decker's Grocery, corner of Campbell and Central Avenues, is being remodeled inside and out by owners of the building, Louis and Ernest Barbano. George Bianchi of San Jose is the contractor. Jimmy Arnold will continue to carry on business as usual during the remodeling.

Legion Patrol Funds On Upgrade

Community Contributes \$166 To Date As Volunteers Launch Support Drive

Campbell Volunteer Legion Patrol members are pleased with the results to date on their expense fund drive, and the support shown by the community. To date the patrol has received \$166. Anyone who wishes to donate to the volunteer Legion Patrol may do so by mailing his contribution to Campbell Legion Patrol, P. O. Box 746, Campbell.

Contributors to date are: Ruth Burns, T. A. Robinson, A. B. Givens, Charles Jones, George M. Light, George E. Booker, Penhall Barber Shop, Lucia Whitney, Fred H. Smith, N. Nanassy, G. S. Robinson, Martin S. Walsh, D. H. Cramer, F. H. Cutting, Leigh Saunders, Hugo Ehret, Clara Seekins, E. H. Price, G. R. Newcomb, John D. Blaine, Oliver C. Jensen, L. Silie, Kurt Ritter, The Ainsley Corporation, Ruby J. Crow, Directors of Prune and Apricot Association, (F. W. Mitchell, pres.), Mr. and Mrs. Lloyd Selig, E. R. Kennedy, Mrs. H. F. Cousins, Botta Garage, Jeffers Men's and Boys' Wear, and the Campbell Press.

Letters are being sent out to Campbell residents urging their support of the patrol which donates its services to the community without receiving pay. Cost of the patrol, including gasoline, upkeep of the patrol car, sidemans and other equipment, have been borne in large part by the patrol members in the interest of public service. However, the costs have become too great for patrolmen to bear without aid from the community which they serve. Thus, an appeal has been made to the residents to help defray the costs. Patrolmen will continue to serve without pay.

It is hoped that each resident will contribute what he believes regular police protection for his home and family would cost him. In addition to support from individuals, several local organizations have contributed toward the patrol expenses and have urged continuation of support of the volunteers by the residents.

Methodist Church

At the Methodist Church on Sunday morning the pastor, Lawrence J. Osborne, will preach on the subject, "Lent for Protestants." This sermon will present the significance of observing the Lenten season.

Miss Thelma Johnson of San Jose will sing the solo part in the church choir anthem. Mrs. Beulah Y. Herboldt, church organist, will play music appropriate to the approaching Lenten season.

More About Everyone's Invited

(Continued from Page 1)
be The Valley Waltzers, the San Jose Polkaters, the Advance Circle of the Gay Nighters and the San Francisco Folk Artists.

Sponsors of the folk dance festival are the Circle Eight Mavericks and the Campbell Adult Education Folk Dance Class.

WHISKERINO
Whiskerino judging of the facial growths sported by Campbell males during the last few weeks will be at the Variety Show to be held in the high school auditorium preceding the dance. Judges will be all the barbers of Campbell.

Refreshment sales during the day's celebration will be handled by the Junior Chamber of Commerce with part of the proceeds to be turned over to the Boy Scouts.

At the dance, which will start at 9 p.m. in the Campbell high school gym, the Pioneer club will put on a fifteen minute exhibition of old time dances while Dad Lee has stated he will put on an old original serpentine waltz.

Traffic problems during the day will be handled by the American Legion Patrol under the direction of Jack Chappell.

All in all, this promises to be the biggest and best Old Settlers' Day celebration yet.

ADEQUATE WIRING

1. ADEQUATE ENTRANCE SERVICE. Adequate Wiring begins with three wires of large enough size brought through your house to the main entrance switch.

2. ENOUGH CIRCUITS. Adequate Wiring provides a sufficient number of branch circuits within your house to prevent overloading of any circuits.

3. PLENTY OF OUTLETS AND SWITCHES. Adequate Wiring means plenty of convenience outlets and switches to permit proper arrangement of furniture—freedom from multiple cord extensions—and the use of appliances without having to disconnect one appliance in order to use another.

Your architect knows what he is doing when he specifies full and complete Adequate Wiring for your home. He is making sure that the wires and circuits will not become overloaded in the years ahead. Your wiring is like your plumbing. When water pipes are too small—water runs in a trickle... and when the wires are too small your supply of electricity isn't adequate to operate lights and appliances with proper safety and efficiency. Certified Adequate Wiring is a good investment. Insist on it. You'll be glad you did!

See your architect and electrical contractor

P.G.E. PACIFIC GAS AND ELECTRIC COMPANY

He works with the sense of security built by the Employees' Benefit Plan over his years on the job.

HOW HE PLANS BEYOND TOMORROW

The story of one of the nation's oldest benefit plans

1. When illness comes... or if he should have an accident... a telephone man counts on the company benefit plan to help tide him over until he can work again. Now 37 years old, the plan is paid for entirely by the company and keeps the paycheck coming, when it's needed most, to men and women of two or more years' service. There are liberal death benefits for dependents, too.

3. Making telephone jobs good jobs is one important way in which we've kept the company efficient and vigorous. It's a policy that's helped us attract and hold the capable people needed to furnish good service... the people who have played so great a part in making your telephone an ever more valuable servant for you.

2. When an employee retires, a solid pension will add to his own savings—of course, no security plan eliminates the need to save. But, for example, if he started at 22 and retires when he's 62, following ten years with an average wage of \$80 a week, he'll get a pension of \$139 a month. Buying these benefits on his own would have meant putting aside large additional amounts for insurance or savings.

Save Up To 40% on

Meats

To Housewives:

We have just finished checking over our books for the month of January. We find that those of you who bought our meats and used our storage facilities saved up to 40 per cent on your meat bills last month. Most of you are now eating more and better quality meats, which is what your families deserve.

We promise you that we will continue to lead the fight for better meats and lower prices. Please make use of our spacious quarters, and our facilities for country-style curing and aging meats.

200-lb. lockers are still only \$9.00 per year. Your credit is good when you use our Budget Plan for meat buying. You pay only \$17 a month.

This week we have the finest meat shipments we have ever had.

Yours Sincerely,

Farm and Orchard CLINIC

Conducted By
ALEXANDER LAKE

OAK ROOT FUNGUS CONTROL
Oak Root Fungus, which destroys millions of trees in the United States each year, thrives in soils that have become depleted, especially in orchard soils on which clean cultivation has been practiced. To prevent the invasion of Oak Root Fungus, keep the humus content high, and maintain the mineral balance in the soil. Particular attention must be paid to the trace elements, such as zinc, copper, iron, boron, etc.

Oak Root Fungus can be eradicated. Frederick DeForest Heald, head of the Department of Plant Pathology and Plant Pathologist, Agricultural Experiment Station, State College of Washington, in his "Manual of Plant Diseases" says:

"Experience has shown that Armillaria (Oak Root Fungus) will disappear from cleared land after a period devoted to some non-susceptible farm crop . . . three years is supposed to be the minimum period of rest unless the soil can be treated with chemicals to kill the rhizomorphs (rungs 'roots')."

It has been proved time and time again by experimenters that when sufficient humus is in the soil to maintain necessary bacterial action, Oak Root Fungus, or for that matter, any other harmful fungus, makes little headway. (Read "Malabar Farm" by Louis Bromfield.)

Says E. L. D. Seymour, editor of "Garden Encyclopedia": "Without humus a soil would be dead and inert, like pure sand or clay, and be utterly unsuited for growing plants . . . One of the gardener's (farmer's) most important and never-ending tasks is to keep his soil supplied with humus." Practically all authorities agree that when soils are rich in humus, and the trees are kept healthy and vigorous by proper feeding and watering, Oak Root Fungus attacks but lightly—if at all.

If the infestation is heavy, some type of soil fumigation should be (Continued on Page 8)

Photograph shows E. S. Groesbeck's two new types of pest control equipment. In the foreground is Glen Dixon with the sensational weed sprayer. Behind him stands Groesbeck beside the new pressure rig. The machines are for home and orchard pest control, and for small area spraying. The machines can be rented by the hour, and operate on either gas or electricity. Both are mounted on two-wheel auto trailers. The machines are also in demand by poultrymen and dairymen for spraying poultry runs for insects and other pests, and for spraying livestock for grubs, buildings for flies and similar insects. Groesbeck's address is 810 Sunol Street, San Jose.

YOUR FARM IS YOUR DESTINY

By SILAS PERKINS

Q. YOU'RE SUPPOSED TO KNOW SO MUCH ABOUT FARMING—HOW DID YOU GET THAT WAY?

A. Son, I used my head. I used my head. I watched the farms of America being ruined by single-cropping, by wind and water erosion, by failure to put back the stalks, leaves and green manures that grow so bountifully. I saw the fence rows where no plow had ever turned a sod. I saw the weeds, and grass and flowers along the fence green, and healthy and vigorous in the dry seasons, while the crops in the fields were dry, and burned and yellow.

I saw corn growing along a fence that was tall and firm, while the corn in the field was dried-out for lack of water. I asked myself why this should be. It came to me gradually that plowing and one-cropping were not good.

I saw lone apple trees, and prune trees that received no care, no water, no fertilizers, growing in thigh-deep grasses and weeds. Their fruit was good. They had no diseases, and insects seemed to leave them alone. In the orchard nearby I saw carefully cultivated trees drop their fruit, go bad with fungus. I asked myself why this should be.

In time I figured it out. Nature knows best. I read a lot. I read books on farming written by Cato long before Christ. His rules sounded good. I tried them. They worked.

And Son, if you will forget most of what you've been taught by "experts," and go back to simple, (Continued on Page 8)

YOU CAN MAKE THE PLANT FOOD WORK IF YOU KNOW HOW

By D. L. WATTS

Place that fertilizer where it will do most good—give it a chance to work for you.

For row crops fertilizer should not come in contact with the seed or with the tender roots of the young plants. Neither should it be placed directly under or over the seed. When fertilizer is placed in contact with or too near the seed sprouting may be delayed or prevented, and if the seed does not sprout, the young roots may be injured.

The different plantfoods move in the soil at different rates. The phosphates move very slowly, since they are fixed and held by the soil to a large extent. The potash salts move some, and the soluble nitrogen compounds move rather rapidly. One of the problems confronting the western orchardists in applying phosphorus and potash fertilizers is a method which will reduce their fixation in the soil and assure that the trees will take up the applied fertilizers. Drill or furrow application of these materials appears to be a long step ahead of the old broadcast methods.

Injury from fertilizer application too close to the seed is largely dependant on the weather. For this reason, injury does not occur

every year. If rain follows planting fertilizers move down away from the seed and there may be no injury.

In dry weather, fertilizers, although applied 2 or 3 inches below the seed, are pulled upward by capillary attraction and may injure the seed or roots. When fertilizers are placed to the side of the seed or plant, they move up or down without injury and only with benefit to the crop. Of course, the roots get the fertilizer when they are stronger—it is only during very early growth that they are easily injured.

The experiments show that proper application increased the average yield of potatoes by 10 to 15 sacks per acre with no extra cost for fertilizer.

Methods of treating the soil changed little from the time of the Pharaohs in Egypt to about 100 years ago.

About 1840 things began to happen. In that year the great German chemist, Justus von Liebig announced that he had treated bones with sulphuric acid, thus making the phosphates more available. In 1842, Sir John Lawes patented his process for making superphosphate. In 1845, von Liebig (Continued on Page 8)

FERTILIZE?—Yes, if you DRILL it in.

Almost every leading authority in the field of fertilizer placement says: Place that plant food under the surface of the soil in concentrated bands where the feeder roots can reach it. A great portion of the plant food spread haphazardly on the surface of most Western soils is rendered unavailable to the growing plant. — WE HAVE THE LATEST ORCHARD AND ROW CROP DRILLING EQUIPMENT

Farming Is A —SCIENCE

By J. E. DUNN

It is probably true that every grower is in the "business of Farming" in the hope of making a profit. Most of them are earnestly seeking ways and means of maintaining soil fertility at a normal level while trying to produce foodstuffs of good quality at a profit.

This honest endeavor on the part of most growers places them in a vulnerable position when it comes to buying the things needed to achieve their aims, and many are often victimized by unscrupulous salesmen. Practically all of the fertilizer and other items that are sold to a grower are of the highest possible quality, BUT they are not the materials that are specifically needed under existing conditions where they are used. It is in this manner—buying perfectly good materials and using them for correction of conditions where they do not belong—which is of the greatest concern, especially to practical research workers who are seeking the solution of the growers' problems.

Individual growers can know but little of the technical aspects of their production problems. However, the agricultural scientists of the U. S. Department of Agriculture, and specialists in private industry—as well as the local agencies of agriculture—have probably worked for years on just such problems as the grower is confronted with, and can be of great help in overcoming the difficulty.

Dr. Robert M. Salter, Chief of the Bureau of Plant Industry, U.S.D.A., agrees that but little is generally known about soils. He stated lately that "it is my considered judgment that crop production costs might be cut in half through SOIL RESEARCH and its application."

Our experience with production problems bears this out. There are numerous technical points to be given full consideration when land and food values keep right on going down when most growers are earnestly trying to keep them up. The research worker, when tackling a problem for a grower, must know in detail, all that has been done in the past to bring about the present condition of soil and plants being grown in each separate instance. Many times a seemingly innocent practice of a former tenant on a piece of land turns out to be just the one item that is the key to overcoming a very bad condition.

There is a definite limiting factor in each and every bad soil or crop condition. It cannot be treated, with any expectation of correcting it, by methods that were used successfully by some other grower who had a similar condition. Nearly every field on a farm has a "past history" that can disclose something that it is of importance in determining why it is in (Continued on Page 8)

Camellia Specialist Has Perfect Bloom

Camellias, described by Rossini, the Italian artist, as "the only perfect flower," are when properly planted, easily grown in Santa Clara County, according to Mrs. Grace Burkhard, owner of Burkhard Camellia Gardens on San Jose-Los Gatos Road.

The Burkhard camellias are outstanding, according to flower lovers, with their glossy evergreen foliage, and sensational blooms add value to any home as well as enjoyment to "Gardens of Friendship."

Entrance to the Camellia Gardens is through a large grape arbor that covers most of the driveway of the Burkhard home. Quality plants ranging from a few inches to ten feet are on display for always welcome visitors. Complete instructions for camellia planting are furnished with every order.

law an election will be held on the 10th day of March, 1950, in said District, between the hours of 12:00 o'clock noon and 7:00 o'clock P.M., during which period and between which hours the polls shall remain open, at which election there will be submitted the question of issuing and selling bonds of said district to the amount of FORTY THOUSAND Dollars (\$40,000.00) for the purpose of raising money for the following purposes:

The purchasing of school lots;
The building or purchasing of school buildings;
The making of alterations or additions to the school building or buildings other than such as may be necessary for current maintenance, operation or repairs;
The repairing, restoring, or rebuilding of any school building damaged, injured or destroyed by fire or other public calamity;
The supplying of school buildings with furniture or necessary apparatus of a permanent nature;
The permanent improvement of the school grounds.

All of the foregoing purposes enumerated herein are hereby united, and shall be voted upon as one single proposition.

Said bonds proposed to be issued and sold shall be of the denominations hereinafter specified, and shall bear interest at a rate of not exceeding five (5%) per cent per annum, payable annually for the first year the bonds have to run, and semi-annually thereafter, and shall be numbered from 1 to 40 consecutively, payable as follows, to-wit:

Bonds	Numbered	Denomination	To Run
(Inclusive)			
1 -	1,000	1 year	
2 - 4	1,000	2 years	
5 - 8	1,000	3 years	
9 - 12	1,000	4 years	
13 - 16	1,000	5 years	
17 - 20	1,000	6 years	
21 - 24	1,000	7 years	
25 - 28	1,000	8 years	
29 - 32	1,000	9 years	
33 - 36	1,000	10 years	
37 - 40	1,000	11 years	

For the purpose of holding said election, the School District shall be and is hereby established as the Bond Election Precinct, numbered one, and the persons hereinafter named, being competent and qualified electors of said School District, are hereby appointed officers of election as hereinafter designated, to serve in their respective Bond Election Precinct as hereinafter set forth, and said Officers of Election shall conduct said election and make returns thereof, pursuant to law.

The voting precinct, polling place, and election officers duly designated and appointed are as follows:

BOND ELECTION PRECINCT NO. 1
shall include all the area embraced in Moreland School District. POLLING PLACE therein shall be Moreland School Club House, Payne Avenue, San Jose, California.

OFFICERS OF ELECTION for said Bond Election Precinct:
Inspector: J. E. Wiesendanger.
Judge: Marian A. Pankoski.
Judge: Dorothy E. S. Harp.
On the seventh day after said election, to-wit, the 17th day of March, 1950, at the hour of 8:30 o'clock A.M. of said day, the governing board of Moreland School District will meet at the regular meeting place of said Board, to-wit, Moreland Schoolhouse, Payne Avenue, San Jose, California, to canvass the returns of said Bond election.

IN WITNESS WHEREOF, we have hereunto set our hands this 7th day of February, 1950.

NOTICE OF HEARING
NOTICE IS HEREBY GIVEN that the County Planning Commission of the County of Santa Clara, State of California, did, by a resolution of said Commission adopted on the 1st day of February, 1950, propose certain amendments to the Zoning Ordinance, Ordinance No. 120 of the County of Santa Clara, and did declare it to be its intention to consider said proposed amendments in the manner provided by law, which proposed amendments are as follows:

To amend Sectional District 10-y of the Eleventh Unit of the Zoning Plan to reclassify certain property located between North Union Avenue and San Jose-Los Gatos Road opposite Cambrian Drive from an R-1-A-B-D and R-1-B-D zone to a C-1 zone.

NOTICE IS HEREBY FURTHER GIVEN that the Commission did set certain times and places for public hearings on said proposed amendments at which times and places any and all persons interested in said proposed amendments may appear and be heard thereon, which times and places are as follows, to-wit:

At the hour of 2:00 p.m. on the 1st day of March 1950, in the Board of Supervisors Chambers at the Court House, San Jose, California.

At the hour of 2:00 p.m. on the 5th day of April 1950, in the Board of Supervisors Chambers at the Court House, San Jose, California.

LEGION AWARDS GOLDEN BEAR FOR MEMBER DRIVE

Five members of Campbell American Legion Post 596 have been awarded Golden Bear pins for outstanding work during the post's recent membership drive. Those who received the awards at the Legion meeting February 8 in Campbell IOOF Hall were: Al Carter, Rex Kaber, Harold Adams, Ed Lee and Leo Park. Each had tallied at least 10 points in the drive.

In addition, three of the group received the "Crusaders of '50" award for bringing in 10 members by November 11. These were Carter, Lee and Park. Two new members were accepted at the meeting, bringing the membership to 144. The quota was 125.

Newest members of Campbell American Legion Post 596 are Ralph Jilison, 550 San Tomas Road, and Frank Seleicia, 619 Parr Avenue.

During the session, the post voted to notify Congressman Jack Anderson and the two California Senators, William Knowland and Sheridan Downey, that it is opposed to the section on veterans affairs in the Hoover Committee Report. The post voted this action after hearing report of Clarence Fagade, Park, Kaber, Frank Johnson, Mrs. Fagade and Mrs. Kaber, all of whom attended a meeting Friday in San Francisco at which the Hoover report was discussed. Speakers at the bay city session were Department Commander Louis Gough and a member of his staff, Dr. Coffey.

Post Adjutant Ed Lee was authorized to send a letter of thanks to Campbell High School district superintendent Laurence J. Hill thanking him for his aid in organizing a local rifle team. A temporary range is nearing completion on the high school grounds.

RIFLE TEAM COMMITTEE

Three members of the post, Jack Chappell, Frank Johnson and Tom Boyle, were assigned as a committee to work with Cadet Corps Commandant Colonel Warren N. Sheldon on plans for both the high school range and a proposed outdoor range.

Four members of the post accompanied a group from the Legion Auxiliary Monday and Tuesday nights to the Palo Alto Veterans Administration Hospital, where they underwent an indoctrination course designed to prepare them for the recreation program which is conducted by the auxiliary at the hospital.

Plans for the Legion dance on Old Settlers' Day were furthered at the meeting.

Park and Lee reported on the oratory contest which they attended last week in Monterey. They were gaining information for the February 19 oratory contest to be held by the 13th Legion District at Campbell High School.

Next meeting of the post will be on Wednesday, March 8. There will be no meeting on February 22 due to the Old Settlers' Day celebration.

Frank Coombs Sells Cambrian Market To Alton Moore

Frank A. Coombs, who established the Cambrian Market, 620 S. San Jose-Los Gatos Road, has announced sale of the store to Alton Moore, formerly of Santa Cruz. Sale took effect February 6. Both Coombs and his son, Del Coombs, were listed as the sellers.

Mr. Coombs established the market in October, 1941, sold it in February, 1945, after which he established the Cambrian Hardware Store. He sold that and bought back the market in 1947.

Mr. Moore, new owner of the market, formerly owned Hill's Market on Seabright Avenue in Santa Cruz.

Coombs indicated he had no definite plans for the future, but that he and his family would continue to live here. The home is on Elden Drive. Members of the family are Mr. and Mrs. Coombs and their daughters, Janet, San Jose State College student, and Connie, Cambrian Elementary School pupil. The Coombs' son, Del, is married and he and his family live near the Coombs Sr., home on Elden Drive.

Sale of the Cambrian Market does not affect the meat department, which present owners Mario Sala and Bill Sanford will continue to operate. Sanford has lived and worked in Campbell for the past 22 years, and will act as manager while Sala is on an eastern trip.

Walker Vaughns Plan Subdivision In Willow Glen

Mr. and Mrs. Walker Vaughn of Campbell have purchased a 20-acre tract in the Cottle Avenue-Curtner Avenue area of Willow Glen for development as a \$1,000,000 residential subdivision, records of the California Pacific Title Insurance Company revealed this week. Revenue stamps indicated a sale price of about \$44,000. Sellers were Ralph and John Horio.

The Vaughns have built exclusive ranch type homes in the Campbell area, and it is expected that the new subdivision homes will have the individuality and finished workmanship of the previous residences. They will subdivide the 20 acres into 60 or 70 lots for these ranch type homes.

All authorities agree that projects for clearing slums, building new houses, redeveloping run-down neighborhoods, should be a part of an orderly plan for the community as a whole, including its outlying regions.

Valentine Party Tops Program At Grange Meeting

A Valentine party, with Pomona lecturer Ed George acting as the master of ceremonies, featured the program when the Cupertino Grange 739 met February 10 at the local IOOF Hall.

Brother George performed several stunts including an Irish jig, marriage proposals and a comic spelling bee. A lecture on juvenile delinquency by John Breeding and a talk on a journey to Europe by Tillie Loyst were also enjoyed by the group.

Visitors present in addition to George were District Deputy Edwin Standish and Mrs. Standish of Almaden Grange, Master Frank Bishop, Sarah Bishop, Past Master Terry Rowe, Mildred Rowe and George Gray of Mt. Hamilton Grange and, Master Martin Walsh, Mrs. A. Brandt, Mrs. Genevieve Heimbold and Frances Rexroad of Orchard City Grange. Mrs. Rexroad attended as a candidate and was obligated by Brother Standish.

On the business agenda, two new members were voted into the order and will receive degrees in the near future. John Breeding reported for the Legislature committee, mentioning the displaced person legislation. Harry Bogaert reported for the Agriculture committee, and several members discussed and disapproved the destruction of potatoes by the Federal government and importation of Canadian potatoes.

Brother Standish spoke on price supports of turkeys and reported that California cotton growers raise 800 pounds per acre as compared to 300 pounds for southern states. He also explained that parts of the Brannan Plan should be given a trial. George Ames reported on dried eggs held in storage by the government and remarked that some eggs in Washington should be disposed of.

A clearance committee was appointed to contact other Cupertino organizations to attempt to coordinate meetings and programs to avoid interference with one another on dates. Appointed were Karl A. Friedrich, George Ames, and Dollie McAllister. Ruth Blair reported that the H.E.C. will convene at the home of Alice Corp on Thursday, March 2, and the Pomona H.E.C. will meet February 28 at the Congregational Church in Sunnyvale.

Mary Breeding was appointed for another year as kitchen hostess. Winner of the mystery box at the gathering was Tillie Loyst with the proceeds going to the March of Dimes. The next meeting of the group will be a joint affair with the Morgan Hill Grange at their hall in honor of their 25th anniversary on Friday, February 24.

"When you buy Records for Children, choose a 'LITTLE NIPPER' Available in both 45 rpm & conventional records

Walt Disney's **SNOW WHITE** and the beloved **SEVEN DWARFS**

Of the many wonderful Walt Disney motion pictures that have held so wide an appeal for children of all ages, one of the greatest is the unforgettable "Snow White." Prince Charming, Snow White, her wicked step-mother, and the funny Seven Dwarfs have achieved a pre-eminence among children's characters and will live as long as children listen to stories. On these records, this ageless tale is told once more by Dennis Day. As millions of others, your child will love it, too.

READ THE STORY! LOOK AT THE PICTURES! while you listen.

'Little Nipper' STORYBOOK ALBUM
Illustrated Book—24 Pages—Two Records

Just as you heard them in Walt Disney's 'Melody Time'

Pecos Bill, Walt Disney's rip-roarin', rootin', shootin' star of the motion picture "Melody Time," is a Texas Paul Bunyan in spurs. In the film he dug the Rio Grande with a stick, shot down stars with his six-shooter, lasso'd a cyclone, wrassled a Grizzly Bear—and captured the hearts of a million children. If they saw the picture or not, they're sure to enjoy his story told again on these records by Roy Rogers and the Sons of the Pioneers.

"Little Nipper" Storybook Showpiece—Two Records

THREE LITTLE PIGS Once there were Three Little Pigs—one built his house of sticks, another of straw and the last built his of bricks. What happened when the big bad wolf came along to huff and puff and blow the houses down provided Walt Disney with what is probably one of his greatest Silly Symphonies.

Like all Disney's works, the Three Little Pigs is ageless and is always a leader in its appeal to children. Recorded directly from the sound track again, this story will take top position in your child's record library.

School Bond Question To Be Presented To Moreland District Voters March 10

The question of issuing and selling \$40,000 of school bonds will be presented to qualified electors of the Moreland School District when election polls open March 10 between the hours of 12:00 noon until 7 o'clock in the evening.

Goal of the election is to raise funds for the following purposes:

1. The purchasing of school lots.
2. The building or purchasing of school buildings.
3. The making of alterations or additions to the school building or buildings other than such as may be necessary for current maintenance, operation or repairs.

4. The repairing, restoring, or rebuilding of any school building damaged, injured or destroyed by fire or other public calamity.
5. The supplying of school buildings with furniture or necessary apparatus of a permanent nature.
6. The permanent improvement of the school grounds. All of the above proposals will be united and placed on the ballot as one single proposition.

For the election, the Moreland school district shall be established as the Bond Election Precinct No. 1. Officers for the election include J. E. Wiesendanger, Inspector; Marian A. Pankoski, Judge; and Dorothy E. S. Harp, Judge.

The governing board of Moreland School District will meet on March 17 at the school house to canvass the returns of the bond election.

Auxiliary members also will assist Mrs. Annie Hedegard in putting on the luncheon at the Campbell high school Wednesday afternoon for Old Settlers' Day. During the meeting plans were also made for the operation of the refreshment booth at the Old Settlers' Day dance in the high school gym Wednesday evening.

Other business included the signing up of members to attend the Orientation course at the Palo Alto hospital and the registration of members to go to the Ward 17 party at the Palo Alto hospital Feb. 21.

Campbell PTA Gives \$60 To Legion Patrol

A \$60 contribution to the Moorpark Protective association was voted by the executive board of the Campbell Elementary School Parent-Teacher Association at its meeting Tuesday afternoon. Problems of the proposed annexation of Moorpark School to the San Jose School District were discussed.

Mrs. Royal Page, chairman of the PTA Old Rag Driveto be conducted February 23 to March 6, urged everyone to save their rags for the drive.

Applications Being Accepted For 1950 Softball Season

Applications are now being accepted for the coming softball season in Campbell, according to Tony Bakich, chairman of the local softball association. Softball will be played under the lights which were a project of the Campbell Business and Professional Women's Club last year and which were erected early last fall. A few games were played under the lights last year, but this season will be the first organized softball to be played under the grammar school arcs.

At a meeting held by the group Monday night, the association decided to have two leagues this year, with a slow league and a fast league to be organized.

All managers of softball teams are asked to submit applications to Chairman Bakich or Neal Royer, in order that the leagues may be set up. Applications may also be mailed to 111 Third Street, in Campbell.

James Roosevelt Gives Campaign Talk In Campbell Wednesday At High School

James Roosevelt, seeking nomination as governor of California, spoke in Campbell in front of Campbell High School Wednesday afternoon, February 15 at 4 p.m. Returning to old fashioned campaign methods, with the modern addition of sound-truck equipment, Roosevelt toured Santa Clara County the 15th and 16th of February in a series of open air meetings. These appearances took place on street corners, or in city parks, where available.

GRASS ROOTS

Roosevelt says that he has found these meetings enable him to talk to real people—to the grass roots, and also enables the people to talk directly to him to their mutual advantage. "I do not learn second or third hand what someone else says the people want—they tell me," said Roosevelt.

Charles H. McDonald, chairman of the County Democratic Central Committee greeted Roosevelt as he entered the county at Los Gatos Wednesday afternoon. Arthur Johnson, democratic candidate for Congress, George Outland, Langdon Post, general managers of the Roosevelt campaign and McDonald accompanied his throughout the tour. Local candidates also appeared.

A minor traffic accident occurred February 9 at 3:10 p.m. at the corner of Campbell Avenue and First Street, when cars driven by Albert Reed, Cabin 6, Gilman Avenue, and Emmette T. Gatewood Jr., 1006 San Tomas Avenue, collided. Neither driver was injured. The Reed vehicle suffered a dented left front fender.

Local Druggists Help Do Unusual Magazine Article

National recognition was accorded Mr. and Mrs. David Gutierrez, Campbell druggists, this week, when Magazine Digest appointed them to do the technical part of an article by Alexander Lake on remedies made from garden crops. The article will appear in an early summer issue of the magazine.

Mr. and Mrs. Gutierrez recently took over the Campbell Pharmacy formerly owned by Harry Algar. Both are graduate pharmacists, and both specialize in prescription preparation.

The article on which they are collaborating with Lake tells of the healing qualities of many fruits and vegetables, and details the chemical ingredients in such fruits and vegetables that effect the cures. Later the Gutierrezes and Lake will do a similar article on beauty treatments from the juices and pulps of garden fruits.

Only five per cent of the American population of four million lived in cities and towns in 1790.

TOP WRITERS

Here are the writers whose material will appear on this agricultural page in the future: Horticulturist Ted Carter, who had charge of the Federal Food Production Program for Alaska during the war; J. E. Dunn, Research chemist, whose work on soils has made him an outstanding authority in the west; Lieutenant Governor Goodwin Knight, who conducts the column, "This California;" Silas Perkins, wealthy retired farmer; and Alexander Lake, America's top agricultural writer. From time to time there will be informative articles by leading irrigation engineers, and other farm specialists.

Starting with this issue, the Farm Clinic will be published every second week. In the next issue watch for an unusually interesting article on mole and gopher control by John N. Crawford, Los Gatos manufacturer of rodent eradication equipment.

Local High School To Participate In Oratorical Contest

At least seven high schools in the 13th District will send students to Campbell February 19 to participate in 13th Annual National high school American Legion Oratorical contest, according to Ed Lee, chairman for the local Legion organization which is acting as host for the affair, at the Campbell Union high school auditorium. Subject to be used by the contestants must be on some phase of the U. S. Constitution which will give emphasis to attendant duties and obligations of citizens to our government.

Winner of the district contest will participate in the area contest, with the area winner going to the state contest. The winner of the state contest will then be eligible to participate in the National contest to be held in Phoenix, Arizona in April. Four national prizes will be awarded, the first prize being a \$4000 scholarship, the second a \$2500 scholarship; the third a \$1000 scholarship and the fourth a \$500 scholarship.

All students of the 9, 10, 11 and 12th grades are eligible to participate. Judges for the contest will be impartial and well-qualified local residents.

Participating in the Campbell contest will be students from Campbell, Palo Alto, Hollister, Santa Cruz, Monterey and possibly several San Jose high schools. The contest is open to all, and luncheon will be served for a nominal sum at the noon period by the women of the American Legion Auxiliary.

The National winner in 1946 was William O. Wollin of Los Gatos with the 1947 prize going to Roy F. Greenaway of Fresno, California. In 1948 the top prize went to James H. Grant of Orlando, Florida, and in 1949 Paul T. Hayne of Concordia, Missouri took top honors.

The Second Area High School Oratorical Contest will be held at 2 p.m. Saturday, March 11 at Room 223, Veterans Building, San Francisco, Calif.

Following are the contestants in the District Contest to be held here this Sunday at 10 a.m.

Sharon Peterson, Campbell Union High School, Campbell; Basil Willett, Santa Cruz High School, Santa Cruz; Charlotte Allen, San Jose High School, San Jose; Carolyn Frisbie, Monterey Union High School, Monterey; and Gloria Silva, Abraham Lincoln High School, San Jose.

Buy Los Gatos Lunch Counter

Sale of Eaton's Lunch Counter, 227 N. Santa Cruz Avenue, Los Gatos, to Mr. and Mrs. Harold Layman of Campbell, has been announced. The Laymans, who formerly operated the Orchard City Creamery and bus ticket office at the corner of Campbell and Central Avenues, purchased the lunch counter from Naden V. Whittaker.

Cambrian School Taking Bids For Transit Type Bus

Cambrian Elementary School district of Campbell is in the market for a school bus.

Sealed bids will be received by the Board of Trustees until 8 p.m., March 2, for the vehicle. The board is shopping for the lease-rental of one transit type school bus with a capacity of 71 elementary school passengers.

By treaty with Mexico, the United States paid approximately four cents per acre for the territory now known as California.

Farm And Orchard Clinic

(Continued from Page 5)

undertaken. Carbon Bisulphide, if applied properly, will kill out most of the fungus in soils from which the trees have been removed. If you combine the carbon bisulphide treatment with a soil improvement program, particularly the addition of plenty of humus, most lightly infected trees will pick up, and throw off the fungus.

Says E. L. D. Seymour: "Treat a diseased tree by digging the soil away from the crown, cutting affected bark back to healthy tissue, and painting the wounds with a disinfectant. Keep the rhizomorphs from growing through the soil to other trees by digging a trench one foot wide and two feet deep around the infected tree."

Comments Heald: "The treatment of apple trees in Oregon (for Oak Root Fungus) has given some promise of success, and consists of removing the soil from around the crown for a foot or more so as to expose the large roots, to be followed by a cutting out of diseased bark or roots. The cut surfaces are then disinfected with creosote, or Bordeaux paint, and protected with a waterproof wound dressing. If the trunk lesions are of great extent, bridge grafting may be needed to assist in the recovery.

"The exposed crown and roots are to be left exposed to the air and sunlight during the summer, but the dirt should be thrown back before freezing weather."

The thing to remember in treating infected trees is this: Unless your soils are brought back to normal by the addition of necessary minerals and plant foods, including humus, the fungus will return if another infection develops in a nearby tree.

Experiments on the Scripps Ranch (Scripps of newspaper fame) near San Diego were made on one thousand Oak Root Fungus infected lemon trees by George Woods, farm superintendent. The procedure as outlined by Professor Heald was followed. Then nutrients, as indicated by thorough soil and leaf analyses, were added to the soil in the following manner.

The nutrients were introduced in a series of holes 6 to 8 inches in diameter drilled into the ground around the trees out near the ends of the branches. Holes were about 3 feet deep. About one pound of the nutrient formula was thrown into the hole. Another pound was mixed with the soil taken from the hole, then the hole filled with the mixture. The mixture in time, underwent chemical changes and spread slowly through the ground.

That orchard, which the year before treatment bore very little good fruit, grew the biggest, and highest quality crop in its history.

Oak Root Fungus is difficult to eradicate from citrus trees. So Woods' cure is noteworthy.

There was a total of 1463 mining establishments in California in 1947, including metal and non-metallic, oil and gas business units.

Farming Is A Science

(Continued from Page 5)

the present condition or why the present crop responds as it does. These "limiting factors" are usually quite different in what appears to the eye as being the same difficulty on separate farms or fields.

As we have repeatedly pointed out, successful growers are anxious to secure the technical information which applies to their individual production problem. They now know that their difficulty cannot be overcome by using materials—no matter how good they are—unless they are specifically suited to the conditions that exist in each different situation.

While stressing the importance of securing technical information when trying to overcome a production problem, it should also be pointed out that there are scores of men who utilize such information, or what appears to be a scientific solution of the difficulty, only for the purpose of selling materials to the grower. There is hardly a grower who has not experienced this procedure. Possibly this is all to the good. They will not be victimized the second time, but will depend on information regarding their soil and crops when it comes from unbiased sources only.

The seemingly "technical" answer to your soil and crop problem, which some growers try to follow, would be really amusing if it were not so tragic. Let's hope that some day we will have legislation that will protect the grower from these unscrupulous operators. This can be accomplished if just the growers who have been "stung" by these "fast operators" will put some effort into getting it done. We are doing our best to achieve that end.

We don't need these "high powered" salesmen who sell the growers "soil analysis" programs only to get them to purchase materials from the company—nor "kill-all" or "cure-all" materials of any kind. There are some instances where these practices have been followed, which would make interesting reading, and at the same time give the growers warning so they won't be taken in by these agents.

Definite programs of procedure based on FACT, are available to the Growers, and they will have to be relied upon for future production if there is going to be any profit made in "this business of farming."

Meat PRICES ARE DOWN

(See Page 5)

Your Farm Is Your Destiny

(Continued from Page 5)

plain farming, rotating your crops, discing in cover crops, stop summer fallowing, use the disc when ever possible instead of the plow, and add a little common sense to the deal... you'll be a good farmer, too. Good luck to you.

Q. I WOULD LIKE TO PUT IN A SPRINKLER SYSTEM FOR STRAWBERRIES, BUT EVERYBODY TELLS ME NOT TO. THEY SAY THE BERRIES WILL MOLD. WHAT ABOUT IT?

A. Toss! Plain toss. Before you plant your berries disc in a mulch—clean bean straw is good. After the berries arrive, sprinkle to your heart's content. THEY WON'T MOLD. If you doubt my word, ask Strawberry Grower Jack Farnum, of Campbell, California. Sprinkling saves half your water bill. Sprinkling washes off mites, red spider, aphids, and the rest. As a matter of fact, sprinkled berries have very little trouble from pests. God uses a sprinkling system when He causes rains. Seems like God ought to know what's best.

big discovered the crop-producing value of potash of salts. The first Chilean nitrate of soda was imported in 1830. Its use increased during the 1840's and Peruvian guano was also being used to enrich the soils of the Atlantic seaboard States.

Until about 1870 progress in the use of commercial fertilizers was slow. The first mixed fertilizer was made in Baltimore in 1855, but the industry did not really begin to grow until after the discovery of phosphate rock in South Carolina in 1868. The first potash imports were made in 1869, and from then on the use of mixed fertilizers increased rapidly.
